Accessories		Description	Application
Digital TV Tuner	TUE-T300DT2	MOBILE DIGITAL TV RECEIVER (DVB-T2)	To receive Digital Video Broadcasting (DVB-T2)
Power Pack	KTP-445U	HEAD UNIT POWER PACK	45W RMS x 4 • 4 x 100W MAX • Plug & Play Installation (no additional wiring required) • Compact size
iPod/iPhone Cable	KCU-461iVE	USB CONNECTION CABLE FOR iPod/iPhone	For connecting iPod/iPhone to X009E, X008EU, INE-W957E, INE-W960E. Includes 2 meter video extension cable
Optical Cable	KWE-610A	DIGITAL CONNECTION CABLE FOR X009E, X008EU, INE-W957E	Length : 6 meter Connection for PXA-H800
HDMI Cable	KCU-610HD	HDMI CONNECTION CABLE FOR HDMI CONNECTOR TYPE D	For connecting iPod/iPhone to X008EU and INE-W957E
D-TV HDMI Cable	KCU-610TV	HDMI CONNECTION CABLE FOR DIGITAL TV	For use with X009E, X008EU and INE-W957E
Camera Cable	KWX-G001	DIRECT CAMERA EXTENSION CABLE	For connecting HCE-C1000D with Alpine Head Unit
Remote Control	RUE-4350	MULTI-FUNCTION WIRELESS REMOTE CONTROL	Remote control for "Remote Ready" Head Units and AV Head Units
Steering Wheel Remote Control	SWC-C20	UNIVERSAL STEERING WHEEL REMOTE INTERFACE	Supports up to 13 different vehicle manufacturers • Programming codes for over 30 vehicle models • Ultra-compact size (40 x 30 x 15mm) • Works with any Alpine Steering Wheel Remote Control Ready Head Unit
Speaker to RCA Cable	KCE-SP2R	2-CHANNEL SPEAKER INPUT ADAPTER FOR PDR AMPLIFIER	For connecting the speaker level outputs from the vehicle's stereo to the Alpine PDR RCA inputs

lcon	Description
3way X-over	Let's you set crossover points to achieve best balance between bass, mid and treble.
flac	Supports FLAC codec for lossless playback of music from USB devices.
C Works with Apple CarPlay	Designed to work with Apple Car Play for even more convenient control.
НЭШ	One HDMI cable carries both audio and video signals at high speed for superior picture and sound quality.
Optical	As opposed to ordinary analogue cable, optical cable uses light to transfer data, preventing significant data loss. This results in more effective and accurate transmission between units.
	Turns your smartphone into an interface for custom sound tuning, with easy-to-use display and many tuning choices.
f	The Alpine Tunelt app also keeps you in touch with your Facebook friends. The app will notify you of new messages on both your phone and the head unit.
BASSENGINE	This advanced bass customization control automatically adjusts frequency cutoff, Q factor and subwoofer level, while maintaining optimum overall sound balance. It also offers five presets for quick selection.
iPod [] iPhone	Alpine is the leader in providing iPod/iPhone integration, ensuring optimum sound quality and outstanding convenience.
E	Alpine units are also compatible with Android phones, for high quality music streaming and easy operation.
	Connect your iPhone via USB and App Direct will let you watch TV (iPhone4s) and listen to sound (iPhone4s/iPhone5) from many apps through your system speakers. You get full control from the iPhone's touch screen and the iPhone stays fully operational.
BT PLUS	BT Plus takes wireless Bluetooth® connectivity to the next level with many advanced phone operation and phonebook functions, and easier control of music search and playback functions (AVRCP1.4).
6ch TCR Time Correction	6-Channel Digital Time Correction adjusts the sound delay from each speaker, so you hear perfect sound imaging.
MX	MediaXpander® function improves compressed sound quality. It enhances the frequency ranges where the sound is compressed, restoring the original vibrancy. Improves quality of compressed sound sources such as MP3 and WMA. Very effective when listening to music through smartphones as well.
	Compatible with steering wheel remote control systems. (The SWRC interface box and SWR-C20 are required)
Here	Built-in high performance navigation system is easy to operate and gives you accurate route directions to your destination.
	Select from 150,000 colors to get exactly the look you want for your system. You can set different colors for the display and buttons. Preset colors also available.
LE ALL Comport Support	Support a 1 ampere power supply. You can connect and power portable hard disks. This makes it possible for you to enjoy your whole music library inside your car.

FULL-LINE HIGH PERFORMANCE 2016

ALPINE STYLE

Your Car, Your System, Your Style

The new Alpine Style models are designed to perfectly match your car, so they look great and operate flawlessly. The extra-large, high resolution displays make watching videos more fun and using navigation more convenient. They give you a wide range of entertainment choices, and you can even add more, such as a Digital TV Tuner. Make Alpine Style your style and get ready for a fantastic driving experience.

X009E ALL IN ONE NAVIGATION HDMI

• Extra Large 9" WVGA/LED touch screen • Plug & Play installation • HDMI/MHL Connection • Dual Zone Playback (independent Audio/visual output for rear monitors) Made for iPhone and iPod • iPod video playback (requires KCU-461iVE) • DVD±R/±RW/DivX Playback • CD-R/-RW/WMA/MP3/AAC Playback • Alpine Tunelt App Ready (with iPhone and Android)
 BASS ENGINE SQ • 3 PreOuts (4 Volts) • 9-Band Parametric EQ • Preset Equalizer (10 modes) • 6-Channel Digital Time Correction Crossover settings • MediaXpander® • 24-bit DAC • Built-in high-performance Navigation System • Voice Guidance in 29 Languages • Text to Speech (TTS) in 15 languages

• 10.2" WVGA Screen LCD Color Monitor (1.15 million pixels) ● Visual EQTM ● 7 colors adjustable Dome light • 1 AUX in • Dimmer: Day/Night/Auto • Menu Language: Enalish

Device of this mark is a trademark of Sharp Corporation. "Plasmacluster" and "Device of a cluster of grapes" are registered trademarks of Sharp Corporation in Japan, the Philippines and elsewhere.

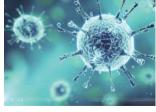

Reduces Static Electricity Outputs ions to reduce static High density ions give luster to the electricity and prevent pollen from sticking to clothes and cabin.

Improved Face Condition skin. Especially good when the air in the car is dry. Ladies love this!

Purifies the Air Sanitizes the floating mold bacteria in the cabin, and suppresses airborne viruses and bacteria.

Deodorizes the Cabin Decomposes and removes the unpleasant odor adhesion of food and tobacco in the car.

Brilliant Picture Quality

The super sharp WVGA display (1.15M Pixel) delivers clear, high contrast images with bright, vivid colors in all types of viewing conditions.

Seven Colors LED Light

You can choose from seven colors to match the LED light to the car's interior color. The seven colors are: White, Blue, Green, Amber, Red, Purple and Sky Blue. An Auto Off function automatically turns off the power in 30 or 60 seconds.

RUX-C800 required for full operation · Included Microphone and USB Cable · Includes 5.5m Ai-NET cable

Customise Your Sound with a Wide Range of Functions

The PXA-H800, Alpine's extremely versatile audio processor, gives you the capabilities to achieve exactly the sound you want, no matter what kind of car you have. You have access to a huge range of sound processing functions that vou can use to best match the acoustics of your vehicle, and to customize the sound based on the type of music, your basic preferences and even your mood

each day. You get Digital Time Correction for optimum sound staging, extensive Digital Crossover adjustment, Graphic and Parametric Equalisers, MediaXpander+, and much, much more. You can even connect to a PC to make and save detailed sound settings.

 Includes installation kit
 BioLite display • Dual illumination (blue/red)

AMPLIFIERS

Incredibly Powerful Performance from Compact Bodies

PDX Amps Deliver Reliable High Power While Saving Space

You won't believe how much power is produced by these small amp wonders. Alpine has achieved new levels of operation efficiency by using the industry's most advanced digital amplification technology. What's more, they generate almost no distortion to maintain highest sound quality, and very little heat so they will operate for long periods without worries about power shutdown. You can stack them vertically to save even more space.

Big Power, Small Package

Although V-Power amplifiers have a 40% smaller footprint than their predecessors, they produce the same amount of power as before. Get the power you need, even if you have limited installation space.

Non Shut-Down Design

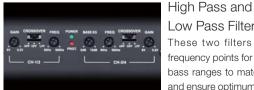

Even if you pound your music for a long time, these amps won't shut down. They use a Thermal Management Processor to make sure the heat level never gets too high. No distortion, no interruptions!

		BBX-F1200	BBX T600
Output Channels		4 Channels	2 Channels
	14.4V, 4Ω	4 x 50W (4Ω)	2 x 50W (4Ω)
Power [@14.4V 1%THD]	14.4V, 2Ω	4 x 70W (2Ω)	2 x 70W (2Ω)
[C	BTL	2x130W (bridged)	1 x 130W (bridged)
Max Power Output		600W	300W
	Filter	Variable, OFF/LP/HP Selectable	Variable, OFF/LP/HP Selectable
Function	LP	50Hz-500Hz -12dB/oct	50Hz-250Hz -12dB/oct
Function	HP	50Hz-500Hz -12dB/oct	80Hz-1.2kHz -12dB/oct
	Bass EQ	0dB to +12dB Variable (3/4ch only)	0dB to +12dB Variable

Common Features: Input Gain adjustment 0.2V-8V, Bass EQ, Variable Filters HP&LP, Thermal Protection

Low Pass Filters These two filters let you set the frequency points for the high, mid and bass ranges to match your speakers

and ensure optimum efficiency.

DDL-R170S

17cm COMPONENT 2-WAY SPEAKER (4Ω)

■ Woofer Unit: Max power handling : 160W • RMS power handling : 40W • Frequency response : 28Hz-15KHz • Sensitivity : 91dB/W/m • Nominal power handling : 40W • Frequency response : 3.5KHz-90KHz • Sensitivity : 91dB/W/m • Nominal impedance : 4Ω

With super-wide dynamic range and the power and speed to reproduce every audio detail, this speaker is finely tuned by Alpine acoustic technicians to bring you beautiful musical performances.

DDI inear **DDL-R170C**

17cm COAXIAL 2-WAY SPEAKER (4Ω)

• Max power handling: 160W • RMS power handling: 40W • Frequency response: 28Hz-70KHz • Sensitivity: 91db/W/m • Nominal impedance: 4Ω

The DDLinear Coaxial Speaker uses some of Alpine's most advanced speaker technologies to provide incredibly rich and powerful sound to fill your car interior.

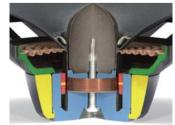

Rotary Horn Tweeter

natural sound.

Alpine's rotary horn structure lets you achieve optimum high frequency sound directivity by rotating the horn to the best position. Even if the speakers are installed in the doors, you enjoy clear, natural sound.

DDLinear Professional-Grade Sound Technologies

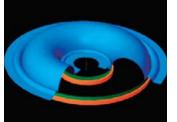

DDLinear Magnetic Circuit A dual-gap, single-coil structure provides stable control over the dense and rigid voice coil and magnetic field. This powerful and efficient circuit delivers high-speed sound with low distortion and superb linearity, for sound quality far beyond ordinary car speakers.

Lavered Hybrid Fiber Vibration Cone

Using multi-layer fiber materials with a carbon shellac coating, this cone eliminates any noise caused by the materials themselves. The phase plug is precisely designed and shaped to ensure the clearest sound possible.

Dual Emission Tweeter

Alpine's original tweeter structure creates a chamber that provides the best possible sound amplitude. Both midrange and high range sounds are accurate and clear, for natural sound that is as close as possible to the original performance.

DDLinear

Swing Structure Tweeter

Unique Tunable Network

The separate tweeter unit swings 360° horizontally and 60° vertically, ensuring that full output is directed to your listening position, no matter where you install it.

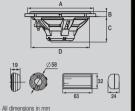

Superbly Designed Speakers Deliver Your Music with Flawless Accuracy

Type-R speakers are the best choice for delivering all of the awesome power and beautiful sound clarity that the PDX amps will output...or any good amp! They're built tough to handle high power levels and produce plenty of deep, pounding bass.

Impressively Powerful Bass Using some of the same technologies as the Type-R subwoofers, such as HAMR Surround for extremely long cone excursion while

sound a powerful punch.

Thanks to a powerful, compact neodymium magnet, small network and slim basket, the Type-R speakers are much more compact than you would expect, allowing installation in the doors of a wide range of vehicles.

Compact for Easy Installation

The component and coaxial Type-S speakers have been popular for many years-and they keep getting better! For example, the latest models have a frame that's lighter and stronger, and they deliver higher efficiency. With stable, reliable performance, high power handling and easy installation, Type-S are a great choice for any vehicle.

The Type-G Series of component and coaxial speakers are designed to easily output high levels of power, but you'll also appreciate their excellent sound quality. They have high performance soft dome tweeters and crossover networks, and are extremely easy to install.

The new Type-J speakers are an affordable way to upgrade your factory speakers, for the high performance sound quality you expect from Alpine.

Tough, Powerful Subwoofers Built for Bass Lovers

Alpine's Type-R subwoofers were an instant success, and they've been getting better each year! For powerfully deep bass extension, fast, accurate transients, and durable power handling, nothing beats the Type-Rs.

	Peak Power	RMS Power	Nominal			ons (mm)

If you want to upgrade the sound of your system, adding a subwoofer should be one of your main priorities. Type-S subwoofers have earned a strong reputation for delivering powerful, accurate bass with consistent quality over long periods of time. An additional benefit is that they have a shallow design which allows installation even in difficult locations.
